M//A

WORK

- 2019 – **Tower of Hanoi** (C++)
I have build a game project named as “Tower Of Hanoi” in C++ Language.
- 2019 – **Project in Python and MySql** (Python)
I have build a console application which deals with data base. The function of that application are insertion and deletion of data base from table.
- 2020 – **Town Management System** (Django v3.0)
In Town Management System I create plotting, attendance, blocker, shareholder and installment app
- 2021– **I MADE IT** (Django v3.0 + Flutter)
I have build backend on this application using database firebase. This app is published on play store.
- 2021– **Appointed on**
I have create full functional api on this project using Django v3.0
